FOR YOUR „HOME”

You do not need to worry about durability of the floor and ease of installation. You can do it by yourself and be certain that the floor will be waterproof, durable and silent. You can be sure that wherever your creativity leads you AFIRMAX floor will rise up to the challenge. This is perfect solution for large open spaces and floor heating.

HOME PLAYGROUND... Nice and silent in everyday use vinyl flooring brings comfort and serenity to everyday life.

HOME CAFE... HD Mineral Core primarily means extremely strong locking system which gives the whole flooring system a maximum durability. Despite of small thickness of the plank our locks are 2 times stronger than average LVT locks available on the market.

HOME SPA... No need to be scared of water. Our floors are 100% waterproof. Frequent cleaning or spilled drinks are no longer dangerous to your floor. Without concerns you can connect your kitchen floor with the rest of your living space.

WITH NO BOUNDARIES ... HD Mineral Core also means high dimensional stability of the floor even in very sunny rooms. We offer at least 2 times higher dimensional stability of our floors in comparison to traditional LVT.

HOME OFFICE... Very low thermal resistance of our floors means more effective use of the underfloor heating system. Thanks to HD Mineral Core less fuel is needed for floor heating and over 60% less carbon is released into the atmosphere from one household in Europe, each year.

HD MINERAL CORE®

In our laboratories we've discovered an innovative combination of natural rock minerals and advanced polymers.

Carefully selected proportion ensures maximum performance of the floor.

Our HD MINERAL CORE® provides extreme durability which we confirm by giving 12 and 15 years guarantee.

DESIGN BEVEL

NEW LOOK

A NEW DESIGN BEVEL inspired by true, classical wooden boards. The new bevel creates continuous design of planks. One plank flow smoothly into another giving the floor premium finishing. This perfect resemblance of wooden floor creates a warm, natural feeling. AFIRMAX designers reproduced the most welcomed and demanded bevel among all flooring.
